PROFILE SUMMARY

Experienced Full Stack WordPress Developer with expertise in designing, developing, and optimizing custom WordPress themes and plugins for seamless user experiences. Proficient in MERN Stack (MongoDB, Express.js, React.js, Node.js), integrating modern web technologies to build dynamic, responsive, and high-performance websites. Skilled in WordPress security, SEO optimization, and database management (MySQL, MongoDB). Passionate about delivering scalable, secure, and efficient web solutions, leveraging both WordPress and full-stack JavaScript to enhance website functionality and user engagement.

CERTIFICATIONS

MERN Stack Development Certification

Issued by: Nepal Mega College
Duration: 13th February 2024 - 16th September 2024
Issued Date: 28th December 2024

WORK EXPERIENCE

Full Stack WordPress Developer

Nepalayan Software Solutions Pvt. Ltd.   *(February 2022 - Present)*

- Designed, developed, and maintained multiple WordPress-based websites for clients across various industries.
- Customized WordPress themes and plugins to meet specific client requirements, ensuring unique and feature-rich websites.
- Implemented performance optimization techniques (caching, image compression, minification) to improve website speed and efficiency.

- Strengthened WordPress security by configuring firewalls, malware protection, and implementing best security practices.
- Integrated third-party APIs and plugins, enhancing site functionality such as payment gateways, CRM tools, and automation.
- Improved mobile responsiveness using custom CSS, Bootstrap, and Tailwind CSS, ensuring seamless browsing across devices.

Web Developer & Trainer

Maupal Educational Consultancy Pvt. Ltd.   *(January 2021 – February 2022)*

- Conducted WordPress development training sessions, teaching students and professionals about theme customization, plugin development, and website management.
- Provided hands-on experience with cPanel, WHMCS, domain management, and hosting configurations.
- Educated trainees on SEO best practices, website security, and performance enhancements.
- Built and maintained WordPress and MERN-based websites, integrating React.js for interactive UI components and Node.js for backend development.
- Assisted in troubleshooting and debugging website issues, ensuring optimal performance and uptime for educational platforms.
